

“Dave Carr has won everything there is to win in amateur golf.”

- *The Sacramento Bee*

## Corporate Golf Outings

Teal Bend Golf Club is home to the largest all-grass driving range and practice area in Sacramento. It is a perfect place to practice your golf game or take a lesson. Because of its large size, it is also a great location for a corporate golf clinic. Dave can build a golf clinic that suits your company's needs. Dave will work with you to find what your goals are for the outing, whether it is a team-building exercise or a reward for a job well done.

## Custom Club Fitting

Having properly-fit golf clubs is an absolute necessity if you want to play your best golf. Dave Carr is a certified custom club fitter and can get you fit for any club whether it is a driver, fairway wood, iron set, wedges, or putter. Call Dave to set up an appointment.

## Bio

Dave has been playing golf for over 35 years, and has a reputation for being an accomplished player. He was an amateur standout in Sacramento in the 80s and has competed in various professional mini-tours for more than 20 years. Dave was a member of the 2002 Canadian Tour, and played in the 2004 U.S. Open Championship at Shinnecock Hills.

Dave gives more than 500 lessons annually. He utilizes a very simple cause and effect approach to his teaching. Dave has a strong understanding of the golf swing, short game techniques and especially playing the game, all of which make him one of the most sought-after teachers in Sacramento.

Dave has a truly passionate approach to teaching. He will help you find out what you want to accomplish, and design a lesson program to help you achieve your goal.

## Private Lessons

### *Half - Hour Lesson (\$60)*

For the individual golfer who is looking to improve one aspect of their game. This might be perfect if you are looking to improve your game but do not have an hour to spend all at once. This is also a great lesson for the junior or senior golfer.

### *One-Hour Lesson (\$100)*

Includes a short review of golfer's golf knowledge and goals. This lesson usually focuses on one or two aspects of a golfer's game or swing. It can also be a great deal for two people, either as an introduction to golf or for those who just want to improve their game. It is perfect to take with a friend or a loved one. It is also great for a golfer who wants help with more than one part of their game. Maybe a half hour on the full swing and a half hour on the putting green or short game.

## Lessons, continued...

### *Series of 3 One-Hour Lessons (\$275)*

You save \$50 when you purchase this three-lesson series. It is great for the new golfer or for any golfer who is looking to improve their current skill level. This series will help you to establish some fundamentals or just work on the ones you already possess. Many times a golfer will use this series to work on three different aspects of the game.

### *Series of 6 One-Hour Lessons (\$510)*

This is the best value and will save you \$125. If you are a player who is trying to get to the next level this series is for you! This series of lessons will give Dave and his student the time to cover many aspects of the game - full swing, the wedge game, chipping and putting.

### *Nine-Hole Playing Lesson (\$200)*

This is a fantastic lesson. You will play nine holes with Dave and get tips on all aspects of your game. Dave will evaluate your overall game and develop a plan to get you playing your best golf. Dave will show you how to manage your game and help you decide what types of shots to play and when to play them. If you struggle with taking your game to the course this is definitely the lesson for you!

### *Game Improvement Series*

This is a fantastic learning opportunity for golfers of all skill levels. The cost of each clinic is only \$15 per player. They usually run weekly on Saturdays and are one hour in length. Schedule is available by request and is subject to change.

### Dave's approach:

- Effective communication with players of all skill levels
- Concepts and ideas that students can relate to
- Customized instruction for each student
